Education

Higher Institut Of Applied Sciences And Technologies Of Sousse **Sep. 2024 – Present**
Bachelor's Degree in Computer Systems Engineering (IoT and Embedded Systems) *Sousse, Tunisia*

Ibn Sina High School **Jul. 2024**
Baccalaureate in Computer Science *Sousse, Tunisia*

Relevant Coursework

- AI & Machine Learning
- IoT Architecture
- IoT Security
- Real-Time Systems
- Embedded Programming
- System on Chip (SoC)
- Digital Design (VHDL)
- Web Programming
- Database Fundamentals

Experience

DataInfo **Sept. 2026**
Backend Developer Intern *Cairo, Egypt*

- Developed the complete back end of Datasphere, a token-based business contact data platform, using Java, Spring Boot and PostgreSQL
- Built REST APIs secured with JWT authentication, featuring dynamic multi-filter search, pagination, and company and people detail endpoints
- Designed the PostgreSQL database and JPA entity model; implemented a pay-per-contact unlock system with token wallet, purchase and transaction tracking

WhiteCape **July 2026**
Web Development Intern *Sousse, Tunisia*

- Developed the complete back end of a ceremony and conference hall management system using Springboot, SQL and JPA entity model
- Implemented modules for reservations, employees, schedules, tasks and financial tracking
- Collaborated with a front-end developer to integrate and test the system using Git, GitHub and Postman

Projects

Datasphere – Token-Based Business Contact Data Platform | *Java, Spring Boot, JWT, PostgreSQL* **Sept. 2026**

- Built the back end of a platform where users search companies and employees and unlock contact details using a token wallet
- Designed a Spring Boot REST API with JWT authentication, dynamic multi-filter search with pagination, and company detail pages
- Implemented a pay-per-contact unlock system that hides contact data until purchase, tracks each client's unlocked contacts, and manages token balances, purchases and transaction history

Clever – Student Productivity and Development Platform | *React, Tailwind CSS, SQL* **Apr. 2025**

- Built an all-in-one platform for academic planning, organization and personal development
- Implemented calendar management, AI-powered chat, goal roadmaps and academic average calculators
- Created an opportunities feed (conferences, hackathons, activities) to help students build skills and improve their resumes

E-Commerce Website for a Small Business | *React, Spring Boot, PHP, PostgreSQL, email service* **Jun. 2025**

- Designed and developed a website for a small business presenting its brand identity and product catalog, with an online ordering feature
- Built the back end handling customer orders and automated email notifications sending order details to the administrator
- Delivered the project end to end and adapted to the client's requirements

Technical Skills

Languages: Java, Python, C, SQL, JavaScript, PHP, Assembly
Backend: Spring Boot, REST APIs, JWT Authentication, JPA/Hibernate
Frontend: React, HTML5, CSS3, Tailwind CSS
Databases: PostgreSQL, MySQL, MongoDB, SQL Developer, XAMPP
Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code
Concepts: OOP, Data Structures & Algorithms, Operating Systems, Computer Architecture
Spoken Languages: Arabic (Native), English (C1), French (Good), German (Basic)

Leadership / Extracurricular

AIESEC – Skill Up Project **Sept. 2026 – Oct. 2026**

Global Volunteer *Cairo, Egypt*

- Worked in a multicultural international team to deliver community-focused training and skill-development workshops
- Coordinated tasks and met fixed project timelines while communicating across cultures

Google Developer Groups on Campus (GDGC) **2024 – Present**

Member *Sousse, Tunisia*

- Participated in a team-based hackathon, collaborating to build a solution under time constraints
- Attend tech events and workshops to learn new technologies and network with other developers

Lyna Conference and Ceremony Hall **2023 – Present**

Team Leader *M'saken, Tunisia*

- Led and coordinated a team in a high-pressure event environment to ensure smooth and timely service
- Demonstrated leadership and organizational skills in managing team dynamics
